

**Middle East Technical University Department of Civil Engineering  
Supervisor of Intern SURVEY**

Date				
Company Name				
Company Sector	Public	Private		
Institution's Field of Activity	Contractor	Project - Design	Consultancy	Other
Number of Engineers working for Company	Less than 5	5-10	11-20	More than 20
How many METU Civil Engineering Graduates that you have been working with affect your answers?	Less than 5	5-10	11-20	More than 20

Please evaluate the performance of METU Civil Engineering Department Interns according to the listed criteria. Use the scale below for evaluation.

0: No opinion

1: Very Low      2: Low      3: Moderate      4: High      5: Very High

	0	1	2	3	4	5
1. Ability to apply knowledge of mathematics and science to solve engineering problems.						
2. Ability to apply knowledge of engineering to solve engineering problems.						
3. Ability to function on multi-disciplinary teams.						
4. Ability to stay on task toward a timely completion of goals.						
5. Ability to define and apply a systematic approach to tasks.						
6. Ability to identify, formulate and solve engineering problems.						
7. Ability to design and conduct experiments, as well as to analyze and interpret data.						
8. Ability to design a system, component or process to meet the desired needs.						
9. Ability to make effective oral presentations (in English).						
10. Ability to write effective technical reports (in English).						
11. Ability to use techniques, skills and modern engineering tools (computer etc.) necessary for the engineering practice.						
12. Understanding of professional and ethical responsibility.						
13. Understanding of the impact of engineering the solutions in a global and societal context.						
14. Level of knowledge on contemporary issues.						
15. Awareness on the importance of life-long learning.						
16. Management Skills (leadership, organization, communication etc.)
